## PROFESSIONAL SUMMARY

---

Full Stack Developer with over 3 years of experience in building scalable web applications and cross-platform mobile solutions. Proficient in using **Flutter** to build responsive, multi-platform applications for mobile, web, and desktop. Experienced in **ASP.NET Core**, Django and **Vue.js** for full-stack development, with additional expertise in **Azure cloud services** for deployment and scaling. Skilled in delivering efficient, maintainable, and user-focused solutions while collaborating within **Agile teams** to achieve project goals.

## EXPERIENCE

### Groupe Safamis SA | Dubai, UAE

*Software Developer (Full Time)*

*Feb. 2022 – June 2025*

- Developed and maintained **Single Page Applications (SPAs)** using **Vue.js**, **Bootstrap**, and **ASP.NET Core** for the backend.
- Built and deployed cross-platform applications using **Flutter**, targeting mobile (iOS/Android) and web platforms with a single codebase, enhancing development efficiency by 40%.
- Migrated on-premises ASP.NET Core applications to **Microsoft Azure**, leveraging services such as **Azure App Service**, **Azure SQL Database**, and **Azure DevOps** for deployment and monitoring.
- Optimized application performance by implementing **cloud-based scaling solutions** and enhancing API efficiency through Azure services.
- Managed SQL database migrations to Azure, ensuring data integrity and seamless integration with application layers.
- Performed testing, debugging, and code reviews to ensure **high-quality, bug-free releases**.
- Collaborated with cross-functional teams to improve development pipelines using **Azure DevOps** and other CI/CD tools.

## **Groupe Safamis SA | Dubai, UAE**

*Software Developer (Internship)*

*July. 2021 – Feb. 2022*

- Contributed to the development of SPAs using **Vue.js** and **Bootstrap**, focusing on responsive design and user-friendly interfaces.
- Gained experience in back-end development by implementing basic APIs and integrating with SQL databases.
- Participated in Agile team meetings, contributing to sprint planning and retrospectives.
- Obtained hands-on experience in **cloud migration strategies**, supporting earlystage Azure application setup under guidance.

## **TECHNICAL SKILLS**

---

- **Programming Languages:** Java, Python, JavaScript, C#, SQL, Dart (Flutter)
- **Frameworks:** Spring Boot, Django, Hibernate, Vue.js, React.js, ASP.NET Core
- **Web & Mobile Technologies:** HTML, CSS, JavaScript, REST APIs
- **Cloud Platforms:** Microsoft Azure (Azure App Service, Azure SQL Database, Azure DevOps)
- **Databases:** MySQL, PostgreSQL, SQL Server
- **Tools:** Git, JIRA, Jenkins, Docker, Android Studio, XCode
- **Testing:** JUnit, Mockito, Flutter Testing Framework
- **Development Methodologies:** Agile, Scrum

## **EDUCATION**

---

### **Western International College, RAK, UAE**

ATHE level 4 Diploma in Computing

2022

### **University of Bolton, RAK, UAE**

Bachelor of Science in Computer Science

2023
